

Workshop press

Hydropneumatic

▶ Ideal for extracting bearings, bridge connecting rod rings, drive pinions...

TECHNICAL SPECIFICATIONS

| Reference | Capacity in Tonnes | Dimensions in mm L x W x H | Gross/net weight in kg | Working width in mm |
|-------------|--------------------|-------------------------------|------------------------|---------------------|
| 05020900001 | 30 | 710 x 700 x 1800 | 204/184 | 535 |
| 05020900002 | 50 | 1360 x 1090 x 1920 | 390/365 | 730 |
| 05020900003 | 75 | 1450 x 800 x 1940 | 455/425 | 800 |

- Speed in mm/s: 1.2
- Manual pump for the 30T and manual double speed for the 50 and 75T
- Piston travel in mm (30T - 50T - 75T): 200 - 245 - 260
- Work capacity in mm (30T - 50T - 75T): 51/1131 - 62/1042 - 68/884

ADVANTAGES

- + Tough construction
- + CE Standard
- + Pressure gauge
